CDC

Terrorism Preparedness and Response Training Matrix

Maureen Y. Lichtveld, MD, MPH

Associate Director for Workforce Development
Director, Workforce Planning and Policy, PHPPPO, CDC

Loews Hotel, Philadelphia, PA (November 7, 2002)

Guiding Principles

- Competency-based
- Performance - driven
- Governmental public health workforce
- Individual and agency competency

Terrorism Preparedness and Response Training Matrix

- CDC anticipated outcomes in the next 6 months
 - Training products database of federal, state and local health training efforts
 - Toolbox of learning offerings
 - Direct training for key state and local BT health officials

Key Training Content Areas

- Biological/chemical agents-diagnosis, treatment, consequences
- Unified and incident command systems
- Communications/notifications systems
- Risk communications
- Worker safety
- Legal authorities
- Epi/surveillance; laboratory systems
- Information technology
- Psycho-social consequences

Getting to Specifics: George's Do's

- Continue existing training and integrate preparedness
- Support consistency
- Focus on competency
- Training-STP
- Emphasize cross-training
- Cognizant of time constraints
- Develop exercises

Role of CPHPs

- Support local/regional education training needs
- Develop “products” for potential national use
- Strengthen the science base locally, regionally, and nationally

Evaluation Context

- CDC – Program Evaluation and Accountability for BT Preparedness and Response State Cooperative Agreements
- State Perspective (ASTHO)
- CPHP-Program Evaluation and Accountability
 - ASPH – A-CPHP Framework
 - Specialty and Advance Practice - CPHP
